Some excellent views of the garden and orchard displays in the pavilion were taken last week and will form a part of the booster literature being prepared by the Commercial Club. A few hundred postal cards would prove quite effective in the line of advertising.

According to press advices from Carson, Nevada, the Oregon Trunk has filed articles of incorporation in that state. The charter provides for nothing further than to build a railroad. John F. Stevens is named as president. This means that the Oregon Trunk is going on south.

Every parent and taxpayer who attended the evening session of the institute Thursday night will say that State Supt. Ackerman is a good prophet in asserting that Burns will have a fine high school building and all necessary equipment within ten years. It will not require that length of time to accomplish it.

THE INSTITUTE.

The teachers institute just closed has been one of the most interesting and profitable sessions held in this county. With exception of four every teacher actively engaged in the work was present and the instructors, State Supt. Ackerman and Prof. Alderman of the university, were much appreciated by local teachers. The following informal resolution was introduced and read by Prof. Collier and adopted by a unanimous vote:

"We the teachers of Harney County, in institute assembled, wish to express our sincere appreciation of the earnest, faithful efforts of Supt. Ackerman and Prof. Alderman in bringing to us so many valuable helps; therefore, we tender them a vote of thanks for imparting to us increased power, inspiration and enthusiasm."

Prof. Ackerman is one of the very thorough educators of the northwest and his long service as state superintendent has been devoted to improving the public school systems of the state in a manner that has been very beneficial. His lecture Thursday evening was excellent and met with favor by a crowded house. The people are much interested in our educational institutions and we are pleased to see them turn out on occasions of this kind.

Prof. Alderman's talk to parents on last evening was exceptionally fine, and one that should be remembered.

The following teachers were in attendance: Misses Hannah Mey, Alva R. Wright, Amy Leake, Ethel Leake, Vera Hendricks, Minnie Denman, Augusta Haarstrich, Neva Hodder, Laura Dawson, Enid Crawford, Agnes Crawford, Myra King, Alice Sweek, Lena Harkey, Lelah McGee, Delta Dillard, Florence Farnum, Clayte Burrow, Josephine Locher, Helene Swain, Mary Godfrey, Julia McKenzie, Ella Sweek, Mesdames Noris Millard, Alma Mickle, Alice Smith-Sweek, Dorothea Irwin, Mary E. Foley, Vanilla Cobb, Mas. Lufey, Messrs. I. C. Raymond, G. A. Collier, A. E. Millard, E. E. Larsen, J. E. Marsh, Theo. Foreier, M. A. Biggs, W. D. Yoder, J. D. Stewart.

THE FIRST NATIONAL BANK.

The directors of the First National Bank of Burns met in this city last Saturday, all members of the board being present. Mr. A. J. Johnson, President of the Benton County National Bank of Corvallis arrived Wednesday. Mr. John D. Daly coming in from Boise Friday evening and Mr. C. A. Haines arriving from the Narrows on Saturday morning. The affairs of this solid institution were given a thorough examination and the business of the bank was found in excellent condition. At this meeting it transpired that several blocks of stock had changed hands since the last regular meeting, same having been purchased by local stockholders. All the old stockholders, however, remain heavily interested in the bank with the exception of N. U. Carpenter whose holdings have been purchased by one of the local stockholders. These changes place the control of the institution in

the hands of local people with A. J. Johnson and John D. Daly each holding large interests in the bank. County Commissioner George Smyth arrived from Diamond while the meeting was still in session. Mr. Smyth has just acquired substantial stock holdings in the bank and dropped in to become acquainted with the business of the institution. The First National Bank enjoys its well earned reputation of being one of the solidest banks in the Northwest. Its statements now show a surplus considerably in excess of its capital while it is authoritatively stated that the aggregate responsibility of its combined stockholders is over three quarters of a million dollars.

SOME PREMIUM WINNERS.

(Continued from page one.)

Mrs. A. Barron, first on new cheese.

Mrs. Frank Cole first on bread, first on largest display of potted plants.

Mrs. Huston, first on exhibit of astors.

Mrs. H. C. Smith, first on sweet peas.

Mrs. Chas. Johnson, first on canned fruit.

Mrs. W. G. Hodder, first on pickles.

SATURDAY'S RACES.

The racing cards for the last day were the best of the week, there being six events for the afternoon.

The first was a special three and one-half furlongs with Evermore, Patsy B and Con D as starters. Patsy B won with Evermore second. Time 45.

There were but two starters in the trot, Pumpkin taking two straight heats over Sidney Wilkes. Time first heat 2:42, second heat 2:41.

The five-eighths miles dash was a pretty race between Wade Hampton and Belle Griffon and the finish was very close. Seventy was a close third. In fact all three starters ran in a bunch the entire distance. Time 1:05.

The Saddle horse race was another exciting one. The first race was declared a tie between Red Bird and Flute and the second trial later was very close between these two horses, Flute winning by a very narrow margin. Other starters in the race were Lady, Teddy Bear and Solo Best. Time 55.

Five starters in the pony race made that an interesting event, but Sorrel Top was an easy winner with Kidd second. Buck, Chico and Sunshine also ran.

Joe Goss, Friar Charm and Evermore were the starters in the half-mile consolation. They finished in the order named. Time 51.

NOTES FROM SUNSET.

-ANANIAS-

Arthur McKee, Colin Dawson and Frank Blackmer are plowing this week.

Jim Reed is helping R. D. Stahl get his hay out from the G. G. Clark place on the lake.

Mr. Henney has been helping Bert Porter get his house fixed up since he moved it back next to the hill. Bert expects to seed about fifty acres this fall.

All Sunsetters are telling each other what fine potato crops they have. Ike Swift was heard to remark that he would have potatoes for two this winter.

Our school has been closed a few days this week while Miss Hodder attended the institute.

Mr. and Mrs. Ray Dickenson visited their homestead this week.

Mr. Beck has gone to John Day for fruit. He expects to bring in a load for sale.

We are proud of our prize winners at the Harney county fair. Robert Settlemyre carried off two prizes in the livestock division and Mr. Conrad one, while our most progressive farmers, Mr. Hodder and E. C. Eggleston, captured several prizes in the vegetable line. We believe that none of the new settlers, and very few of the older ones, can show a better record.

M. J. Nash and Henry Black are at home for a few days with their well drilling outfit to allow Mr. Nash to harvest his potato crop.

I. S. Tyler is certainly one of our farmers who is not discouraged. He is preparing to break up quite a body of new land in addition to that which he already has under cultivation. He has also built a substantial barn and other out buildings this summer. We need more farmers like Mr. Tyler.

Mr. Russel's thresher is ex-

SALE OF HORSES

During the next 30 days I will sell about 15 head of young stallions, brood mares, driving horses and colts and fillies.

The most of them are high bred trotters, two colts by one of the best draft stallions in Eastern Oregon.

I am going to sell and will make the price right on everything.

I sell cheaper for the same class of stock than any one else and have never sold a horse that did not make money for the buyer, some have doubled their money. Come soon as I mean business and am going to sell.

The Stag is one of the latest and best additions to the famous Deere Line of Riding Plows. Is light in weight, simple and durable in construction—full of genuine merit, and has shown its mettle and utility in every test it has been put to. It has amply demonstrated by its good work its right to be classed as a strictly up-to-date, high-class farm tool. It is certain to suit the most critical farmer and be a money-maker and a labor-saver for him.

"If It's a Deere—It's Right"

and does its work perfect ease to the operator and team. It is manufactured and sold as a tongueless plow—a tongue not being necessary to best results, but one is supplied at slight cost to those who prefer it that way. The Stag is the simplest riding plow built,—anyone who can hook up a team and drive 'em straight can operate it successfully. It possesses many superior features not found on other plows, and it takes a whole book to illustrate and describe them. Better write for it today and all the information you want about this superior implement.
